OBJECTIVE

Highly motivated Computer Engineering student with a strong academic foundation (GPA: 7.7) and diverse technical expertise. Proficient in Python, SQL, Excel, and front-end technologies (HTML, CSS,ReactJS,Node,MUI,Firebase,and other libraries), with practical experience in developing responsive web applications and optimizing system performance. Demonstrated success in contributing to agile development projects, leveraging Git for version control, and collaborating effectively in remote environments. and machine learning, Open to remote and relocation opportunities to contribute to innovative and impact projects.

WORK EXPERIENCE

Go Eleventh Mile · Web App Dev(Startup - Intern) — Aug 2024 - Present

- Developed a fully dynamic website to promote business, goals, and achievements.
- Designed and implemented an admin panel for managing app data efficiently,Scalable
  Frontend : React.js, Node.js, MUI, Tailwind CSS, RESTApi, and other libraries. Figma
  Backend : Firebase, Firebase Cloud Functions, and other technologies.

Softrate Technologies · Web Developer (Startup - Intern) — Jan 2024 - Apr 2024

- Developed a static web page for a LinkedIn influencer.
- Collaborated with other developers to brainstorm and exchange knowledge.
- Worked with cross-functional teams,contributing to a 10% improvement in project success rates
- Worked on website content writing, creating engaging and informative content to enhance user experience and SEO.
  Frontend: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, API's

Key Outcomes:

- Learned to use Git and GitHub for version control and collaborative development.
- Enhanced communication skills, effectively shaping and articulating thoughts in team discussions.

EDUCATION

SRM Institute Of Science and Technology ,Ramapuram Campus — JUN-2022 - Present

Bachelor ofTechnology in Computer Science (GPA: 7.7)

Coursework : Data Structures and Algorithms, Database Management Systems, Computer Networks, Software Engineering, Artificial Intelligence, and Machine Learning.

Achievements: Consistently ranked in the top 10% ofthe cohort; active participant in technical workshops and hackathons.

SKILLS

Programming Languages: Python, HTML, CSS,ReactJs,NodeJs

Database Management: SQL (Basic), MySQL,Firebase,MongoDB

Tools and Technologies: Excel, Git, GitHub,API

Methodology: Agile

PROJECTS

Sentiment Analysis -ML(Python)

I modified a sentiment analysis model from Kaggle and integrated it into a Flask-based web application. Using Pickle, I connected the ML model to the website, enabling dynamic input and output of data through an API for real-time analysis.

INTERN PROJECTS

UrbanRider Site

Developed a fully dynamic website to promote business, goals, and achievements.

https://urbanrider.in

Go Extra Mile Site

Developed a fully dynamic website for business owners to sign up, create accounts, and sell their products seamlessly.

https://www.goextramile.in

ACHIEVEMENTS

- Won II prize in the event Epoch, conducted by the SRM IST Department of CSE with specialization in AI and MLA **SEP-2023**
- Won 1st Prize in the INTBOT event, conducted by the SRM IST Department of CSE, for building a website within a given time frame. **APRIL-2024**
- Won 2st Prize in the INTBOT event, conducted by the SRM IST Department of CSE, for building a website within a given time frame. **FEB-2025**
- Won 2st Prize in the TECHCRAZE_2K25 event, conducted by the DG Vaishnav College for building a website with Given Tech stack **FEB-2025**
- Won 2st Prize in the NIRAL VERSE 2K25 event, conducted by the Hindustan College of Arts & Science! for building a website with Given Tech stack **MAR-2025**
